WILLIAM CRANSTON, of Liberty.

The oyster's vacation ended Wednesday.

August has been making a specialty of climate.

Yesterday was the end of summer, according to the calendar.

Yesterday was the last day if not the last rose of summer.

The sun is putting the finishing touches on the pumpkin's complexion.

That official thermometer must have had a chill when it registered only 89.

Porto Rico must be a paradise. There are no grasshoppers nor Populists there.

A commission to wind up the over-heated summer would also be received with favor.

See that "r" in September? It means that you can now use oysters for "interior decoration."

McConnellsville has signified her intention of holding a street fair at a period late in September.

According to the calendar, summer is over, but we doubt if the thermometer is going to take a tremendous sudden fall.

The history class will notice that a new chapter has been added to the year's course since the schools closed in early summer.

John L. Lentz will deliver a Democratic speech in Wilmington, Del., on Saturday next. John seems disposed to take a state of his size.

When Johnny comes marching home this country owes it to him that he is met at the station with a coupe and pretty near anything on the side that he wants.

Up to date Miss Helen Gould has given \$125,000 to the American cause since the beginning of the war with Spain. It really looks as if the wealth haters have to forgive her for being rich.

President McKinley has his ears open to hear what the people are saying about the questions to be settled by the Paris peace commission. The president who keeps close to the people seldom goes wrong. It was Lincoln's way.

When the boys of Uncle Sam's army are free to enter civil life again it is the duty of every citizen to not only welcome them, but to do all in their power to see that they are given opportunities to again re-enter business life, and make their way in the world as they did before they responded to the call to arms.

The Laughing Plant.

This grows in Arabia, and derives its name from the peculiar intoxication produced in those who partake of its seed. It is of moderate size, with bright yellow flowers and soft velvety seed pods, each of which contains two or three seeds resembling small black beans. The natives of the district where this plant grows dry these seeds and reduce them to powder. A small dose of this powder has effects similar to those arising from the inhalation of laughing gas. It causes the soberest person to dance, shout and laugh with the boldest excitement of a madman, and to rush about, cutting the most ridiculous capers for nearly an hour. At the expiration of this time exhaustion sets in, and the excited person falls asleep, to awake after several hours with no recollection of his antics. The botanical classification of the growth has not yet been identified.—Montreal Pharmaceutica. Journal.

RACES.

Entries For the Bicycle Races Labor Day Still Coming In.

The committee having in charge the race meet to be held at the Fair Grounds Labor Day, are still hard at work completing the final arrangements.

Although the entries for the races do not close until Thursday night, they have received thirty-two thus far. This assures the fact that most of the races will have to be run in heats.

There will be no pace-makers, but a time limit will be put on all races.

E. F. Barber, of Wellsburg, holding the championship of West Virginia, will give an exhibition half mile, as will also W. C. Kunkel, of St. Clairsville, who is a noted professional rider of this state, having shown himself a rider of mark at the State Meet held in Cleveland on July 4.

Every precaution has been made to make this a fair and impartial meet and the committee should be shown the appreciation of the enormous task of holding a professional meet in a city of this size. Riders from all parts of this section of the country, including Ohio, West Virginia and Pennsylvania, have already sent in their entries and the Club is promised a good many more which they expect today.

Those already heard from are as follows, and are entered in the following order:

J. B. Hedges, Columbus.
P. J. McLain, Pittsburg.
Alphans Fox, Marietta.
Geo. Bay, Marietta.
Louis Taylor, Canal Dover.
Bert Wible, Canal Dover.
John Martin, Marietta.
Chas. Stewart, Marietta.
Chas. Darrow, Marietta.
Fred W. Mitchell, Marietta.
Bliss Reed, Columbus.
D. W. Dabold, Marietta.
Okey Queen, Marietta.
Jerry Jewel, Carpenter, O.
H. Rildorfer, Wheeling.
C. S. Taylor, Zanesville.
P. A. Tyra, Luber, W. Va.
Geo. L. Nicholson, Columbus.
W. S. Roberts, Parkersburg.
Henry Greb, Canal Dover.
J. J. Balzer, Wheeling.
Bert Pickett, Wheeling.
Frank Schafer, Canal Dover.
W. J. Bay, Marietta.
W. C. Kunkel, St. Clairsville.
G. E. Green, Ashtabula.
Clyde Young, Enon Valley, Pa.
E. S. Barber, Wellsburg, W. Va.
D. D. Howard, Wellsburg, W. Va.
Harry Todd, Wellsburg, W. Va.
J. C. Stamp, Wheeling.
Ralph Goodhue, Clarington.

FIRE.

Parkersburg Visited By a Disastrous Conflagration.

Parkersburg, W. Va., Aug. 31.—The Parkersburg Veneer and Panel Works burned to the ground last night, resulting from a small blaze started in the dry house.

This was one of the largest concerns about the city and employed between 75 and 100 hands, all of whom will now be thrown out of employment.

The fire was first noticed about 11 o'clock and immediately the whistles commenced to send forth their shrieks of warning, and shortly after the alarm was rung up at the fire department. The boys made a quick run to the scene of the conflagration, but all in vain—the water works at that point were in such a condition that nothing of much force could be done, and despite their exertions, a works worth several thousand dollars and giving employment to nearly a hundred men burned to the ground.

A large stock of material was in the building at the time of the fire, very little of which was gotten out.

It is believed that the insurance will cover the loss.

The works were owned by a stock company composed of several of the most prominent business men in the city.

Oil Well Supplies Abroad.

Twice during August the Oil Well Supply shops have increased their force of employees to meet the requirements of the trade, much of it coming from abroad. More than 50 cars of tubing for the distant oil fields of Java and Sumatra are on hand, with requisitions from Australia and Russia for large supplies or drilling materials. In some respects the United States maker is at a disadvantage in supplying the oil well operator of the far east, yet the skill that the Yankee has attained, and the inventive genius of the American oil man, put the American outfit at the front in every country. The Caspian sea oil fields of Russia have long been a market for the Oil Well Supply company, and for other American manufacturers. Everywhere that oil is produced the American machine has more or less of a hold. Were it possible for the American to be as familiar with the needs of the distant fields as he is with his own, American machinery would hold sway absolutely, for no other is so good as that which goes from the United States.—Derrick.

Watertown.

The reunion of company I, 148th O. V. I., was of unusual interest this year it being entertained by Comrade and Mrs. L. Power, of Watertown. A good program was carried out. By ten o'clock 23 of the members of company I had gathered together and were comparing notes of '61 and '65 with the present unpleasantness with Spain. At 11 o'clock our genial Captain and President called the company to order. The following program was then carried out: Music by the company band. Invocation, by Comrade J. M. Witham. Address of welcome, by Miss Augusta Powers. Response, by Comrade William Breckinridge. Recitations by Misses Edna Humphrey, Lina Morris and Julia V. Arnold. A paper by J. A. Arnold on the blowing up of ordinance stores at City Point August 9, 1864, of which the most of our regiment was an eye witness. A good address by Rev. Mr. Francis. A bountiful dinner. The following committee on arrangements for 1899 was appointed: Wm. Breckinridge, J. A. Arnold and Roscoe Wolcott. Committee on adjournment reported to meet with Comrade Daniel Stollar next year on Wednesday following the second Saturday of August. Officers were elected for the year as follows: President, Captain D. J. Richards; Vice President, R. F. Alexander; Secretary and Treasurer, Roscoe Wolcott.

The Watertown Farmers' Club met at the home of Osmer Leggett on Saturday, the 13th. It was one of the most pleasant meeting of the season. The subject of the day was very seasonable—"How can we get the most profit from our corn crop." Mr. L. S. Bingham had a good paper on the subject. His method was to feed his crop to stock on the farm. Must do so to retain the fertility of our farms. Thomas Greenlees crushes his small corn mixed with oats. Crushing adds to the feed value and convenience in feeding. Crushed feed is fed to cattle only. Fodder is generally fed whole in mangers, but he thought to get the most benefit from it it should be cut and shredded. Following is the program for the September meeting:

Music.
Essayist..... Mrs. J. K. Woodford
Recitation..... Clifford Leggett
Reader..... Brooks Wolcott
Paper—Poultry on the Farm..... Mrs. D. E. Mercer
Declaration..... Clayton Arnold
Subject: "Preparation for Seeding Wheat and best Varieties." A. W. Remley; followed by George Arnold.
Economy in Dressmaking.....
The September meeting will be entertained at the home of Lud Smith.
Mr. W. K. Breckinridge has been earnest in his work in securing flags and erecting a good pole for the display of weather signals. The report will come from Watertown each day by telephone. On next Saturday evening an ice cream and cake social will be given in Laffin Hall for the benefit of the signal service. R. W.

"Now good digestion waits on appetite, and health on both."
If it doesn't, try Burdock Blood Bitters.

Introducing America, etc.
N. B. Kindly retain your programmes for future requests.
*Requests.

There is more catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure manufactured by F. J. Cheney, Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

No need to fear sudden attacks of cholera infantum, dysentery, diarrhoea summer complaint of any sort if you have Dr. Fowler's Extract of Wild Strawberry in the medicine chest.

ALL KNOW HIM.

Do you know Blinkins? Dingdest galk 'At ever started in to talk! No matter what the question be He never gits it right—not he. He's dumber en my garden hoe; But when the facts is settled, though, He's first to say, "I tolt you so!" Do you know Blinkins?
He sez, sez he, "No war you'll see; He gives this country up fer lost; But when them guns begun to boom En Spanish tyrants met thar doom, He ups en starts right in to blow, You'd think he waz the hull dern show The way he sez "I tolt you so!" Do you know Blinkins?

When them thar Spanish came acrost He gives this country up fer lost; Jus' loaded aroun' behind the shed A-countin' on hisself fer dead; But when our navy laid 'em low He limbered up enough to go En schreech right out, "I tolt you so!" Do you know Blinkins?

En, furthermore, he don't know beans; Fer 'ninstance, take them Phillerpeens! He sez, sez he, "they's s'itate Near Zanzibar, I calculate!" We got the joggaffy to show They's out near Archipeligo. En then sez he, "I tolt you so!" Do you know Blinkins?

I reckon when he's done down here En trots off to a nobler sphere. He'll start right fer the golden gate Whar only good folks set en wait; En when St. Peter sez, "You go To that thar place 'at's down below!" He'll wink en say, "I tolt you so!" Do you know Blinkins?
—Baltimore American.
